## SUMMARY

I'm a web developer who loves building things that people enjoy using. I have experience with PHP, MySQL, and JavaScript, and I'm always focused on making sure the user experience is smooth and intuitive. I enjoy working with teams and believe that clear communication is key to getting things done well and on time. Whether I'm collaborating with others or working on my own, I'm always eager to learn new skills and grow. My goal is to create web experiences that make a difference and keep improving as a developer.

## WORK EXPERIENCE

### Freelance Websites and Web Apps

Aug 2024 - Present

- Created custom websites for small businesses, focusing on clean designs and user-friendly functionality.
- Handled the end-to-end development process, including wireframing, coding, and testing.
- Communicated regularly with clients to provide updates and gather feedback, ensuring satisfaction with final deliverables.

### Student Project Support

Sept 2024 - Present

- Assisted students with final-year projects by providing technical guidance and hands-on support.
- Helped design and debug code to ensure functionality and meet academic requirements.

### Intern – NIIT FESTAC LAGOS

March 2023 – Sept 2023

- Participated in team brainstorming sessions to contribute creative solutions to design and development challenges.
- Assisted with file management by organizing and maintaining accurate records, ensuring easy access and retrieval.
- Supported office operations by performing administrative tasks and ensuring a smooth workflow.
- Worked closely with the team to meet deadlines and uphold organizational standards.
